BRIDGE COURSE

REPORT

Bridge course was commenced on 31/08/2024 to newly admitted students every year before commencement of the first semester classes. The main objective of the course is to give confidence and skills to the students for successful transition to college and new curriculum, during course we discussed about our syllabus, exam pattern, rules and regulations of our college, we even explained topics like general characteristics of algae, fungi & microbial diversity to build connection between pri -university syllabus and Bsc I semester syllabus.

The classes conducted for a week after completion of the bridge course the test was conducted online in class hour from 9:30 to 10:20 to the students and assessment was maid. This was very helpful for us to concentrate slow learners for better results. Total number of students admitted for course were 107 and total number of students attended for test 83.
