YUVA SAMVAD PROGRAM REPORT

Central Ministry of Youth Affairs organises an interaction session titled 'Yuva Samvad: India @2047' at selected Universities/Colleges during the year 2023-24. The Yuva Samvad in a single phrase can be defined as- "for the youth, by the youth, of the youth". The Samvad will be an unstructured discussion among youth led by persons of eminence. The dialogue and discussion during the Yuva Samvad India @ 2047 will be based on the theme of Panch Prans (five resolves) as proclaimed by Prime Minister, Narendra Modi, during the Independence Day Speech on August 15, 2022. The Panch Prans are –

1. Goal of Developed India
2. National Unity and Solidarity
3. Remove Trace of Colonial Mindset
4. Sense of Duty among citizens
5. Take pride in our heritage and legacy.

Yuva Samvad initiatives aim to rekindle the spirit of patriotism and values of India's Freedom Struggle by engaging the youth in various events. This will help showcase 'Youth Power' and reinforce the five resolves 'Panch Pran', among the youth of the country

The NSS Unit 1 and 2 of BLDE'A SB ARTS AND KCP SCIENCE COLLEGE College is selected by the Central Ministry of Youth Affairs to organise Yuva Samvad. The "Yuva Samvaad" program, organized by NSS Unit 1 and 2, took place on March 28, 2024, at 11:00 am in the Seminar Hall of our college. The program aimed to create awareness about nationalism and democracy among youth, develop leadership qualities, promote social responsibility, foster creativity and cooperation, and enhance problem-solving abilities.

The inaugural session commenced at 11.00 am. This session started with the NSS Choir singing the NSS anthem. The welcome speech was given by the NSS volunteer Miss. Harshita Mallur. The presidential address was delivered by Dr. R. M. Mirde, Principal of SB Arts & KCP Science College. Then watering the plant ceremony was done by the Chief guest of the day, Suresh B. Gejji, (President of Gejji Career Academy), Dr. R. M. Mirdhe, Principal SB Arts & KCP Science College. Dr. P S Patil, IQAC Coordinator, Prakash Rathod, NSS District Level Officer and Mr. Milan Rathod and Dr. Tarannum Jabeen NSS Coordinators of the college.

This was followed by his inaugural speech and he talked about the Panch Pran/ Five Resolves. He mentioned about the necessity of unity and integrity and the citizen's duty and responsibility in nation building. He further talked about how youth need to be more knowledgeable about the Panch Pran/Five Resolves in order to shape them into great leaders and good citizens and to make them more known about various social economic problems of this country so that we can build a better India. Then Mr. Manoj NSS volunteer was called for the felicitation speech. After that NSS volunteer Mr. Pajwal M. Patil delivered vote of thanks.

PLANT QR CODING

Plant QR Coding is unique way of accessing plants information. All plants have their own unique code. QR codes are like barcodes by that anyone can scan with their phone to access more information about the plants. Plant QR coding is the best practice of department of botany, Eco-Club. QR codes are barcodes that can be read by mobile phone (Smartphone) cameras. We have created a QR code for 43 plants in our college campus. Each QR code gives access to a 'Plant Information' webpage of complete details for that plant. Smartphone users scan the QR Code which automatically takes them to the webpage of that plant. While the world seems to be going digital, people lack the time to read books. Hence, the Department of Botany, SB Arts and KCP Science College, vijayapur has decided to exploit the rapidly growing platform for a unique purpose.

Students on the lush green campus were seen using their phones to scan QR codes hung on the trees for its information. These codes give students all the information they need to know about the tree from its scientific name to its medicinal value. They only need to put their smart phones to use. To keep up with the digital trend, we collected the database of all the trees in the college and assigned QR codes to them, making it easier for everybody to learn about a plant or a tree at the tip of their fingers. We see a lot of students, teachers and even visitors extracting information about the trees via the QR codes. With the installation of QR codes, gaining knowledge about the trees has become easier as it helps us save time and effort that is required to scan books at the library for the same purpose. And now we are looking forward to name some more plants in the upcoming days.

Report On "Talent Hunt"

Everyone has talent. What is rare is the courage to showcase it.

A talent show provides students an opportunity to show case their talent in any field. It not only helps the participants to show their abilities but also motivates other students, to come up front and show their secret potential. Young Students have an ocean of hidden talent amongst them and we at The BLDEA'S SB Arts and KCP Science College, Vijayapur believe it letting our budding enthusiasts come forward and shine. It was on the bright lovely morning of 16th December 2023, when the grand event was conducted. We had a tidal wave of participants who put their heart and soul in preparing themselves for this event.

The talent show had a massive array of events like Dance performance, a Singing performance and Debate too. Now that's a lot of talent under 1 roof! We as teachers are immensely proud of all the participants The talent show indeed proved to be a wonderful platform for the students to discover their hidden talents. The students enthusiastically participated in the talent show and exhibited superb flair and abilities to excel in whatever they did. Various students of I semester have been participated in all the events, the judges have observed the performance of all the students with respect to activities and given the valuable suggestions to improve further.

This show would not have been possible without the support of our dear Principal Dr.(Smt) R.M. Mirdhe, Cultural chairmen Prof. Srinivas Doddamani and the members Prof.(Smt.) Shridevi Bhairodagi and Prof. Shridhar Joshi.

Vachana Sahithya Samrakshana Divas to mark 144th birth anniversary of Dr. F. G. Halakatti

Halkatti's life is a role model for today's youth and researchers - Deepmala Patil

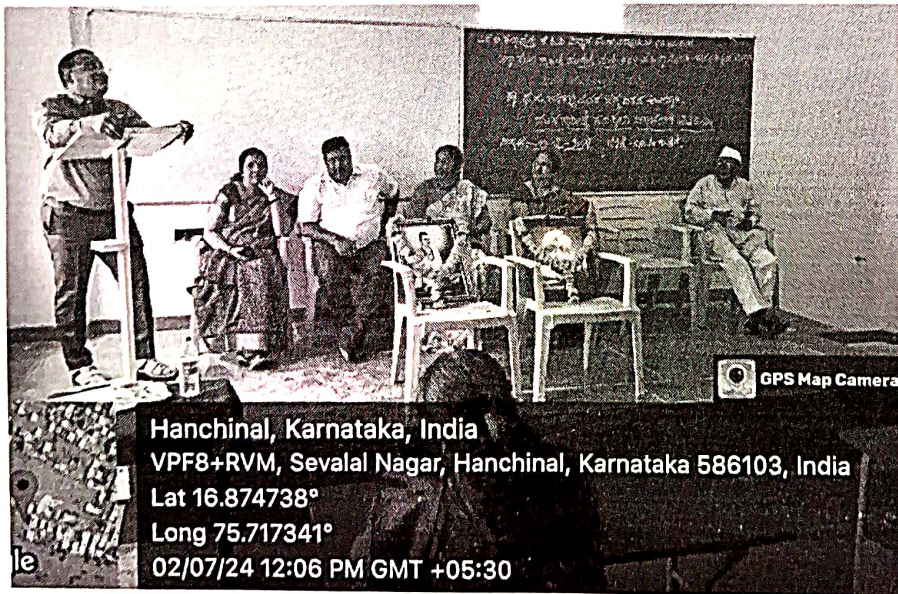

B.L.D.E.A'S S.B. Arts and KCP Science College, Vijayapura, Department Of Kannada, in collaboration with District Sharana Sahitya Parishat and Kadali Mahila Vedike celebrated Dr. Vachana Sahithya Samrakshana Day to mark the 144th birth anniversary of P. G. Halakatti. To celebrate his birth anniversary Dr. Deepmala Patil was invited as speaker. After the 12th century, the Vachana literature was re-energized. Halakatti created and nurtured the Vachana literature of the Sharanas. He lived as a force rather than as an individual. Halakatti's life is a role model for today's youth and researchers. He dedicated his life to literature, that is why he is known as Vachanapitha and Vachanagumta. By dedicating his life to the publication and dissemination of Kannada Vachana literature, he introduced more than 250 Shivasharanas and their literature to the country through Shivanubhava and Navakarnataka magazines. He is still immortal in the minds of the viewers. His life is a guiding light for us, said Patil. Halakatti struggled for the printing of Vachana literature even during his illness. He worked as a fakir for the survival of Vachana literature. The former president of the district Sharana Sahitya Parishat, Mr. M. G. Yadavada, who was present on the occasion, said that reading his biography would make one teary-eyed. He has contributed not only to literature but also to society. It is due to his hard work that he worked for the establishment and development of our BLDE Institute. IQAC Director Dr. P. S. Patil said that he is also credited for working for the education of Lingayat students at that time.

Mrs. Savitha Kanakareddy, Prof S.Y. Angadi, Dr. Mahesh Kumar. Prof Malathi Changond, Mallikasaba Jamadar and Akshaya were present. Students

About BLDE Association

The inception of BLDE Association in 1910 dawned a golden era of revolution and new awakening in education field. It was due to the farsighted vision of eminent lovers of knowledge such as Dr. F.G. Halakatti and Poojya Sangana Basava Swamiji of Banthnal and others. Their philanthropic mission was to propagate education in this educationally and economically backward region. The phenomenal growth and development of the Association took place under the dynamic leadership of Late Shri B.M. Patil. Presently, the association has witnessed academic excellence by the dedication of Shri M.B. Patil, the President of Association. Today, the Association runs 70 educational institutions in all genres of education from Primary level to P.G courses and it embraces Professional and Technical Colleges such as Medical, Engineering and Pharmacy etc.

About SB Arts and KCP Science College.

S. B. Arts and K.C.P. Science College: At a Glance It is a Pre-Independence College established in 1945. It is also a flag -ship of BLDE Association with 70years of long standing academic excellence. The Arts discipline is named after its founder Poojya Shivayogi Sangana Basava Swamiji and Science is named after its donor Shri Kanak Channanagouda Patil. Details of the event

One Day State Level Hands on Workshop on Exploring Mushroom Diversity: From Forest Floors to Mastering Cultivation brought together mycologists, researchers, students and enthusiasts interested in the study of macrofungi, that produce large visible fruiting bodies of different morpho-structures. The event was designed to deliberate upon current state of macrofungal diversity, importance of macrofungi in ecosystems, conservation efforts, human culture, and industry and the latest techniques, challenges, and opportunities in mushroom cultivation both via lectures and hands on training session. Here are some key takeaways of the event:

1. The workshop convened a distinguished assemblage of delegates from various research institutions to learn, varied diversity of macrofungi, including rare and endemic species, their distribution across different ecosystems, ecological roles, such as their involvement in nutrient cycling, decomposition, and symbiotic relationships with plants.
2. Dr. Syed Abrar, Resource person of the workshop disseminated his findings on macrofungi, including new species discoveries, genetic studies and monitoring

techniques. The insights was vital for advancing scientific knowledge and informing conservation policies. The deliberation also addressed on the threats to macrofungal diversity, including habitat destruction, climate change, pollution, overharvesting, and strategies for conservation and sustainable use.

3. The event was dedicated to the execution of inventories and monitoring programs to assess the diversity, distribution, and population trends of macrofungal species. The data was very essential for targeted conservation actions, establishing and maintaining protected areas / reserves and conservation areas, which helps to safeguard habitats from destruction and degradation. The discourse laid the foundation for the guidelines, needs to be implemented for sustainable harvesting of edible and medicinal macrofungi that can prevent overexploitation, ensuring the long-term survival of macrofungi.
4. The workshop incorporated interactive practical training session by Dr. Ajayana K. V., wherein the students and fanatics acquired knowledge on various techniques and methodologies for mushroom cultivation, including substrate preparation, spawn production, management of fruiting body, and diseases & pests, proper harvesting techniques and post-harvest handling covering both traditional and modern cultivation methods, highlighting the advantages and disadvantages of each.
5. One Day State Level Hands on Workshop on Exploring Mushroom Diversity: From Forest Floors to Mastering Cultivation functions as a pivotal forum for sharing knowledge, fostering collaboration, promoting conservation and sustainable use of macrofungi and advancement of mushroom cultivation practices. The event underscored the significance of macrofungi in both natural and human-managed ecosystems and featured the need for continued research and action to protect their diversity and benefits of continuous learning and innovation in this field to meet the growing demand for mushrooms and to contribute to food security and sustainable agriculture.
