Introduction

On the occasion of World first Aid day celebration, this program was organized by the National Cadet Corps (NCC) to promote fitness health benefit and awareness among cadets. The event was held on 14/9/2024, and it saw enthusiastic participation from our NCC cadets. First aid is the first and immediate assistance given to any person with either a minor or serious illness or injury, with care provided to preserve life, prevent the condition from worsening, or to promote recovery until medical services arrive.

Objectives

The day aims to educate people about the crucial role first aid plays in tackling medical emergencies and encouraging them to come forward when a situation arises.

World First Aid Day is an annual event that aims to raise awareness about the importance of first aid and how it can save lives. The day's objectives include

Educating people

World First Aid Day aims to teach people how to perform basic first aid techniques so they can respond to emergencies

Encouraging action

World First Aid Day encourages people to come forward and help in an emergency

Promoting accessibility

World First Aid Day aims to make first aid accessible to everyone through public displays and events

Highlighting the value of first aid

World First Aid Day highlights the value of first aid training and how it can help communities respond to emergencies

Planning and Preparation

- ✓ Having an updated first aid kit at home and in the car can also make a big difference in an emergency.
- ✓ Remember: when in an emergency, always stay safe and alert first responders!
- Step 1: Ensuring the area's safeness
- Step 2: Evaluate the injured person's condition.
- Step 3: Seeking help.
- Step 4: Providing first aid.

Details of the Events (Execution)

This year 2024, World First Aid Day is celebrated on the 14th of September (Second Saturday) in SB Arts and KCP Science College. On this day, many PI Staff, Miss Anita Desai and ANOs educate to NCC cadets about the importance of having basic first aid skills and their role during emergencies.

SUB. MAJOR G.N. Kurandale was explained First aid is an emergency measure that often consists of simple, frequently life-saving measures that the vast majority of individuals can learn to execute with minimum equipment and no prior medical knowledge. The term "First aid" relates to the administration of care to a human provided by a bystander (s), though it is not considered medical treatment and does not replace expert medical interventions. The core aims of first aid are to preserve life, promote recovery, prevent further deterioration and ensure safe transportation to the nearby healthcare facility.

Miss Anita Desai was instructed to NCC Cadets in practical aspects in outdoor activities. First aid skills are kept simple on purpose so that people can remember and use them in an emergency to save at least one life. One set of goals of **First Aid Cardiopulmonary Resuscitation (CPR)** is an emergency procedure that combines chest compressions often with artificial ventilation in an effort to manually preserve intact brain function until further measures are taken to restore spontaneous blood circulation and breathing in a person who is in cardiac arrest.

The ANO, Dr. Ramachandra Naik.M the initiative and said, "This initiative not only contributes to our community but also instills a sense of responsibility and care for Human Life. Such actions reflect aware the true spirit of community service frequently life-saving measures."

"This First aid skill is part of the social service and community development activities of the NCC," nearly 80 NCC cadets participated in it,."

Impact

Knowing basic first aid can help save lives and prevent injuries from getting worse.

Conclusion

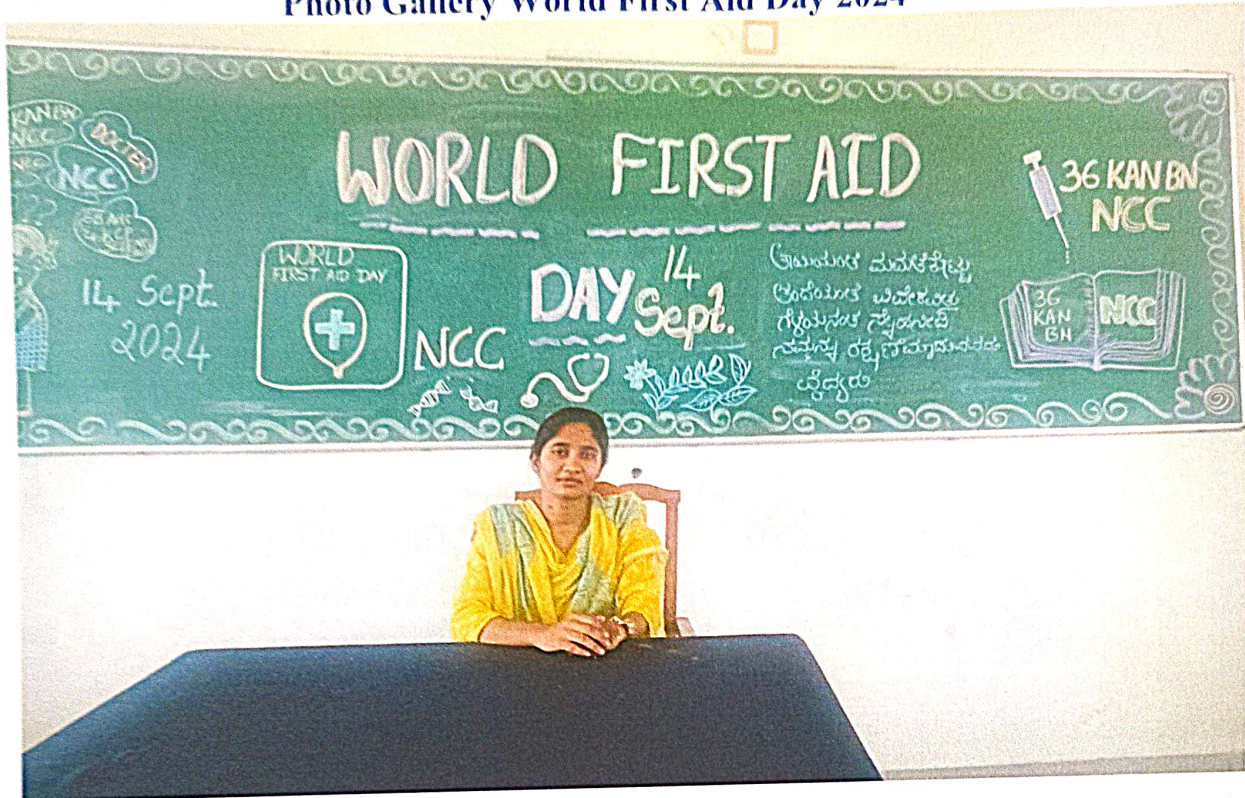

First aid training and aid skills are crucial in emergency situations, potentially saving lives and preventing conditions from worsening
